The ideas conveying meaning of evaluation, modernisation and revolution, the concept of transformation.

Keywords;

social change, Social transformation.

Introduction;

social change is a phenomenon that is constantly encountered in our daily lives. This is the society we live in is itself changing all the time. The concept of social transformation is very closely linked to social change. Sometimes the two terms are used interchangeably. sociologists have been trying to answer and explain, in main, three basic questions of social Change First, the question of whether social change to society, modern sociology helps us understand and provide with explanation the complex set of changes that societies experience in the process of human history.

There are a number of ways in which Social change has been understood and deboned it can be attributed to differences in pierce Pitons and perspective of the concept and variation in labelling weight age to the idea and nature of social change. It is generally agreed among sociologist theft the focus in the discourse of Social change is the aspect of occurrence of significant alterations in the organisation and/or structure and Functions of social libel rather than the regular, short term and predictable reoccurrences. Sociologists define social change as changes in human

interactions and relationships that transform cultural and social institutions.

These changes occur over time and often have Profound and long-term consequences for society

social change;

Change means differentiation in anything observation over sometime. if we feel that there come alteration we call it changes. it this change is in contest to social structure. institution etc. i-e. Social context then it is Social change.

According Fictor; change means variations From pre vious state or mode of existence.

change is an universal Phenomena ile it is a law of native. Theres always a change in nature Society is a part of nature and so society also changes and static society is unthinkable. Society is on the wheel of charge, which may occur boro due to various Factors (like dermo graphy, ideas etc. If there is any change in Technology etc there's change in society) out the change varies in speed and Farm. In some places the change is hapid wherease in other places it may be slow. These day due to instriation and urbanization the change is rapid as compared to earlier times. The Farm may be economic, Political, Social (instriation) religious (instiation), Change in any part of society affects all the other parts of society. An individual is the Fundamental unit of society and •thers change in the life of the individual which is called evolutionary process of social change

Definitation of Social Change;-

Crinsberg, by social change I understand a change in the social structure. Kingsley Doris; By social change is meant miy such alternations as occur in social organization i. e- the structure and Functions of society.

Merril and Elbridge; social change means, that large no. of persons are engaging in activities that differ from those which they or their immediate fore-Fathers engaged In some time before.

Gillin and Gillin social changes are variations From the accepted mode of life, whether due to allegation in geographical condition, in cultural equipment, composition of the Population or ideologies and whether brought about by diffusion or inventions within the group" **Jones:** social change is a term used to describe Variations in or modification of any aspect of Social Process, social patterns, social interaction or social organization.

M-D. Jenson - Describes - social change as modification in ways of doing and thinking of people.

characteristics of social change;.

social change is universal or it is an essential law. change with different in speed and Form simple Society. social change is change in community. social change generally changes indirection. These are three patterns of social change.

Factors of social change

Demographic Factors;- Portmantua plays an imp ordain role in society it there is change in the composition of pop se is change in these society by composition we mean the structure i. e serration Sex ratio. For balance in Society the sex ratio should be 1:1 and if there is change in the ratio there is change in society if there are more Females than the status and position goes down.

Natural Factors Now native affect Society- National Calamities, Floods, epidemics affairs society in Its social relationships to Structure. people become selfish as during scarcities they are more bothered Feeding themselves.

Technology Factors: Mechanization and social change-machines bring about this gave Woman the chance to work gave rise to woman's tib.

Unemployment and such problems arose there affected cottage industries.

Cultural factors; write about concept of cultural tag by w .R.. rugburn book - Social chrematistic change He says material and non-material change, usually non-material cope up with material changed and gives rise to cultural lag. Change in values ideas and custom's changes society In handbook of Sociology, he said if may so happen that material education, ionization etc. it is due to

change in the production system change in technology because it is due to change in technology theta tee change in production that's why his theme is called techno-logical data, change in production sister Productive relation and labourers

Social Transformism.

What is social Transformism: Social transpr motion re repens to the process of change in institutionalized relationships, norms. Values, and hierarchies over time, it is the manner in which society changes due to economic growth, science, technology glial innovations, and war or political upheavals. Social Tranformatim. What is sosial Transfermatim: Social transpor mation re repens to the process of change in institutionalized relationships, norms.

Values, and hierarchies over time, as it is the manner in which society changes due to economic growth, science, technology glial innovations, and war or political upheavals. Social Transformation implies a Fundamental Change in society, which can be contrasted with social changed viewed as gradual or incremental Changes over a period of time social change has been the subject of a good part of sociology From Ibn Khaldun of the Fourteenth century to Immanuel wate Wallerstein in the twenty first century.

Sociology of development is a filed of study in social logy that primarily deals with issues of development and change in what is euphemistically called the global South, or in the past as developing countries. Studies of social transformation encompass a wide range of institutional and cultural changes in society threes throughout history.

Although the idea of social change is more of less universal, sometimes there are disagreements on the directionality of change as with the mocha nismus of change.

one delimitation of social transformation is the process by which an individual alters the socially ascribed-Social status of their parents into a socially achieved status for themselves. However, another definition refers to large scale social change as in cultural reforms or transformations.

Social Transformation in Individual; This is different from social reproduction and social mobility-because instead of looking at the intergenerational mobility of the meat measure of the changes in social status which occur from the parents to the children's generation, Social transformation Focuses on how an individual can alter the class culture to which they feel aligned. Social transformation is considered an interpret-Sonal negotiation because it requires that the individual have their social position be validated by others for transformation.

Transformation in social system: social Transfer motion in this countered requires a shift in collective consciousness of a society local, State, national or global-so that reality is refined by consents. Social transformations are such when they sustain over time where attitudes and values are held in a completely new countered based upon different assumptions and beliefs. Culture and Globalization; Today, Social transformation is evidenced by two significant concepts, namely culture and globalization. culture reefs to the distinct way of life of a particular group of people. it differs from me society to another depending on their geographical locations, literacy levels, advancements in technology, and political environments, culture includes the belts, morals, laws, Customs, and art related to society.

Conclusion:-

Social change and social transpiration are central concepts in sociology, Shaping how societies evolve and adopt overtime. Social change involves gradual shifts in the Structure and functions and of a society, affecting relationships, norms, values and cultural Patterns social Transformation highlights radical, rapid shifts that redefine entire ways of life. Recognizing these distinctions helps us better navigate and soften influence the dynamic Processes shaping our world.
